

I am writing in reference to LPFM taking priority over FM Translators. I am opposed to this. I listen to K-LOVE and support this station financially and prayerfully because I believe that it provides a good family atmosphere that is safe and encouraging. This is something that is hard to find on other stations, even ones that advertise family friendly programming. I am never afraid of what my children will hear on K-LOVE. In a world where so many children hear and see things that they should not have to, K-LOVE provides safe, clean, inspiring music and messages. I feel that it is in the public's best interest to have the opportunity to hear messages and music such as this.
